**FORCAM welcomes new ecosystem partner Accenture and joins the Industrial IoT Innovation Center in Garching, Germany**

**Strategies and practice of digitization for manufacturing companies**

**Goal: Access new business potential for customers in the IIoT era**

Ravensburg, January 2020.

From January 2020, FORCAM will be an ecosystem partner of Accenture's Industrial IoT Innovation Center in Garching near Munich in Germany. FORCAM and Accenture will jointly present practical smart factory applications and develop digital business strategies together with interested companies.

Accenture is the world's leading consultant for strategy, management consulting, digitization, technology, outsourcing, and business transformation. The Ravensburg-based FORCAM is a pioneer in industry 4.0 and provider of a best-in-class platform solution for the industrial Internet of Things (IIoT).

Andreas H. Schuler, Managing Director Accenture Industrial IoT Innovation Center:

"We are pleased to welcome FORCAM as another innovative partner for our Industrial X.0 ecosystem. The open and fully flexible IIoT platform solution fits very well into our program. In the Center, we develop digital strategies with our customers and use our shopfloor to demonstrate practically the possibilities that digital transformation already offers in the industry today. As an innovative ecosystem partner, FORCAM complements our portfolio and fits in perfectly".

Oliver Hoffmann, Chief Sales Officer of FORCAM:

"The IIoT brings both challenges and opportunities for companies. FORCAM offers companies a multi-award-winning platform solution to significantly increase their productivity and planning - from the factory to finance. We are pleased to strengthen our cooperation with the global player Accenture through the new eco-partnership in Garching. Together, we will present a firework of digital manufacturing in planning and practice to customers and interested companies alike."

**About FORCAM**

FORCAM provides the industry standard for smart manufacturing: Product suite FORCAM FORCE™ is the world's first turnkey and open, manufacturer-independent and expandable cloud platform solution for the Industrial Internet Things (IIoT). With the motto "PLUG & PERFORM", we present the new IT industry standard for Smart Manufacturing.

- Simply network machines and any ERP via FORCAM plug-ins and adapter
- Profit quickly via pre-installed FORCAM apps and with more than 70 reporting-functions
- Stay flexible with the first open app programming interface (OPEN API) for Smart Manufacturing.

We provide companies with all the information they need to control and optimize their production. The modular IIoT solution FORCAM FORCE™ is as flexible as the needs of our customers. With a multitude of production apps, we support you in making your processes more transparent and help you optimize your workflows. This creates the basis for continuous improvement and sustainable success, thereby securing your competitiveness. We grow together with you and support you on the path of digital transformation – from the machine connection to the complete IIoT solution.
